To Whom It May Concern,

I am writing this letter of reference for services for The Parker K9 Group. Our company has been working with William Parker since 2016 on consistent and constant training of our canines and canine handlers. The training surrounds numerous explosive materials, ranging from everyday household items to complex chemical explosives. The Parker K9 Group has also helped us expand our program to include firearm detection canines (Vapor Wake), building the program from ground zero to where it is to date. The Parker K9 Group offers high quality services, and we can confidentially say that we have always been satisfied with their services.

One of the trainings that our team has been able to participate with, exposed them to different situations in a different environment that not every Canine trainer would have been able to explore unless you have had the right connections and experience to set the stage for that particular training. The quality and attention to detail that the company has and the feedback that is given is invaluable to our team making us a robust canine program in the private sector like no other. We have garnered that reputation because of the knowledge and the experience of The Parker K9 Group.

I would highly recommend The Parker K9 Group for any canine training needs. The Parker K9 Group always explore the best way to ensure the program is top notch, but also keep the business acumen in mind. The Parker K9 Group was able to take green dogs and develop them into some of the best Vapor Wake dogs we have seen, thus saving the business thousands of dollars by training them from scratch opposed to purchasing them already trained. Thanks to the success of the program and training provided by The Parker K9 Group we have expanded our program from 3 canines to 6 canines, to include a championship win in our inaugural East Region Canine competition.

November 13, 2023

To summarize it all, The Parker K9 Group is the best in the business by far. Not to mention that The Parker K9 Group is 1 out of 3 companies sanctioned by Auburn University to train Vapor Wake teams. You can not go wrong with The Parker K9 Group.

Sincerely,

A handwritten signature in black ink that reads "Marcus Taylor". The script is fluid and cursive, with the first letters of each word being capitalized and prominent.
